

What is **FELIWAY® FRIENDS**?
FELIWAY® FRIENDS is clinically proven to help multiple cats live in harmony within the same home, by reducing conflicts and tension between cats.
FELIWAY® FRIENDS is a synthetic copy of the cat appeasing pheromone which is naturally produced by the mother cat after giving birth to her kittens. This pheromone is released from the mammary area and is detected from the environment through an area close to the nose. This pheromone has a strong appeasing action on the offspring that helps maintain the bond between kittens and their mother. The cat appeasing pheromone has been shown to have this same bonding effect on adult cats living in multi-cat environments. The synthetic copy of the appeasing pheromone in **FELIWAY® FRIENDS** is released as the plug-in diffuser device warms up.
FELIWAY® FRIENDS is species specific and can only be detected by cats and has the same meaning to all cats. It has no sedative effect on humans or any other animal in the home.

FELIWAY® FRIENDS has no contra-indications with any other treatment.

Cat behaviour is often very complex and there are many approaches to help manage it. **FELIWAY® FRIENDS** is considered the first line non-drug solution to help cats live in harmony in multicat homes. It has been proven to reduce the frequency and intensity of conflict and tension between multiple cats within the home.

In some cases, additional behavioural treatment and environmental modifications may be required and advice should be sought from your veterinary practice or behaviourist.

FELIWAY® FRIENDS can be used in addition to other behaviour modification treatments your veterinarian or qualified behaviourist may recommend.

FELIWAY® FRIENDS is not a veterinary medicinal product. If there are signs of disease, consult your veterinarian.

FELIWAY® FRIENDS can be used alongside **FELIWAY® CLASSIC**.

Please go to www.feliway.com for a complete resource library of helpful knowledge, visual tools and advice from experts and for more details on the uses and benefits of **FELIWAY® FRIENDS** and **FELIWAY® CLASSIC** products.

• DIFFUSER PLUG-IN & REFILL

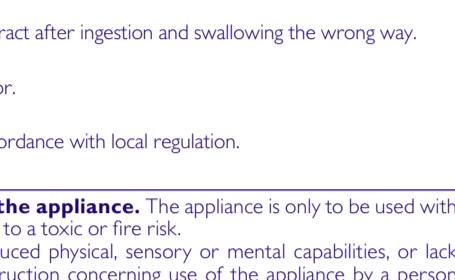

Feline appeasing pheromone (C.A.P.) analogue 2%

Isoparaffinic Hydrocarbon q.s. 100 ml

Each 48 ml vial lasts up to 30 days.

To be used with 230V - 240V only.

DO NOT PLUG: Below any electrical device, under furniture or under any object protruding from the wall, in a multi-socket/multi-plug adaptor or an extension lead.

DANGER.

Contains: Hydrocarbons, C14-C19, isoalkanes, cyclics, <2% aromatics

May be fatal if swallowed and enters airways.

KEEP OUT OF REACH OF CHILDREN

The danger is linked to penetration of the liquid into the respiratory tract after ingestion and swallowing the wrong way.

Read all the instructions before using the product.

IF SWALLOWED: Immediately call a **POISON CENTRE**, or a doctor.

DO NOT induce vomiting.

Dispose of contents/container at hazardous or special waste collection points, in accordance with local regulation.

Waste electrical devices must not be disposed of with household waste.

Children should be supervised to ensure that they do not play with the appliance. The appliance is only to be used with the recommended vaporising medium. The use of other substances may give rise to a toxic or fire risk.

This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.

This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and if they understand the hazards involved. Children should not play with the appliance. Cleaning and user maintenance should not be performed by children without supervision.

The appliance has hot surfaces to evaporate the active ingredients and these surfaces should not be touched during use.

DO NOT PLUG: Below any electrical device, under furniture or under any object protruding from the wall, in a multi-socket/multi-plug adaptor or an extension lead. MINIMUM CLEAR DISTANCE above diffuser = 1,20 m (4 ft). This may impair or block diffusion of the product and leave residual marks.

DO NOT immerse in water. DO NOT plug in upside-down.

Change the electrical device every 6 months. This product is covered by the European Directive 2002/96/EC on Waste Electrical and Electronic Equipment (WEEE). The aim of the directive is to reduce the amount of electrical and electronic equipment being produced and to encourage everyone to reuse, recycle and recover it.

Use ONLY **FELIWAY® FRIENDS** Refills. **Ceva** will not be held responsible for damage, injury or poor performance caused by use of any other refills in **Ceva** diffusers.

SAVE THESE INSTRUCTIONS. More detailed safety instructions are available on www.feliway.com.

Qu'est-ce que **FELIWAY® FRIENDS** ?

FELIWAY® FRIENDS possède une efficacité cliniquement prouvée pour aider les chats à vivre en harmonie au sein d'un même foyer en diminuant les conflits et les tensions.

Les phéromones sont perçues dans l'environnement par l'organe voméro-nasal du chat. La phéromone apaisante du chat est naturellement sécrétée au niveau de la zone mammaire de la chatte. Elle produit une action apaisante et contribue à renforcer le lien d'attachement entre les chatons et leur mère.

FELIWAY® FRIENDS est une reproduction synthétique de cette phéromone, libérée par le diffuseur au contact de la chaleur.

FELIWAY® FRIENDS est spécifique aux chats. Il ne peut être perçu que par les chats et n'a aucun effet sur l'homme ni sur les autres animaux.

FELIWAY® FRIENDS n'est pas un tranquillisant. Il n'a pas d'effet sédatif et n'a montré aucun risque d'interaction avec d'autres traitements.

Les problèmes comportementaux du chat sont souvent complexes et il existe différentes approches pour vous aider à les gérer.

FELIWAY® FRIENDS est la solution non-médicamenteuse de première intention pour aider les chats d'un même foyer à vivre en harmonie. Son efficacité est prouvée dans la diminution de la fréquence et de l'intensité des conflits et tensions entre les chats du foyer. Dans certaines situations, une thérapie comportementale ou des modifications environnementales peuvent être nécessaires. Demandez conseil à votre vétérinaire.

FELIWAY® FRIENDS peut être utilisé en association avec d'autres traitements à visée comportementale recommandés par votre vétérinaire ou par un comportementaliste.

FELIWAY® FRIENDS n'est pas un médicament vétérinaire. Si votre chat présente des signes de maladie, consultez votre vétérinaire.

Consulter le site www.feliway.fr pour toute information, outils visuels et conseils d'experts, et plus de détails concernant l'utilisation et les bénéfices des produits **FELIWAY® FRIENDS ET FELIWAY® CLASSIC**.

• DIFFUSEUR & RECHARGE
